The **LEGOLAND® WINDSOR RESORT** offers a wealth of opportunities for learning. This list of study topics suggests attractions and areas of the Resort pupils can visit.

MODES OF TRANSPORT CITIZENSHIP SKILLS

- **Science** ► **D&T**
- 1 Hill Train
 - 29 Miniland
 - 15 DUPLO® Airport
 - 25 LEGO® City Deep Sea Adventure
 - 45 Hydra's Challenge
 - 33 LEGOLAND® Express
 - 6 Minifigure Speedway
 - **LEGO® CITY**
 - For a KS1 Transport project the Resort offers the opportunity for pupils to look at the similarities and differences of a wide range of different forms of transport – hot-air balloons, trains, helicopters, boats, cars and submarines.
- **Citizenship/PSHE**
- 18 LEGO® City Driving School
 - 19 Coastguard HQ
 - 22 Fire Academy
 - Use a variety of rides to develop citizenship skills and an understanding of how to keep safe in a variety of situations – including road, water, fire and building site safety.

STRONG STRUCTURES

- **Science** ► **D&T**
- 8 Sky Rider
 - 46 Flight of the Sky Lion
 - 52 Jolly Rocker
 - Explore the materials and structures used to construct rides in the Resort.

HISTORICAL CONTEXT

- **History** ► **English**
► **Art** ► **Music**
- **PIRATE SHORES**
 - **KNIGHT'S KINGDOM**
 - **KINGDOM OF THE PHAROHS**
 - The historically-themed attractions provide a strong visual and creative stimulus for a number of topics studied in schools.

NUMERACY

- **Maths**
- 29 Miniland
 - The Resort provides great opportunities for key mathematical skills to be used in realistic and engaging settings, for example: estimating distances and how many LEGO® bricks are used in certain models; using miniature models to introduce the concept of ratio and scale; recording and presenting data such as the number of people entering the Resort at different times of the day.

MAPS

- **Geography** ► **Maths**
- **Throughout the Resort**
 - Be an active geographer and try out key mapping skills, including map reading and using keys, while exploring the Resort.

LIVING THINGS

- **Science**
- 25 LEGO® City Deep Sea Adventure
 - This attraction lets children get up close to a large variety of aquatic animals. It provides an opportunity to demonstrate curriculum elements such as adaptation, variation and feeding relationships.

MECHANISMS

- **Science** ► **D&T**
- 1 Hill Train
 - 29 Miniland
 - 46 Flight of the Sky Lion
 - 47 Fire & Ice Freefall
 - 36 Scarab Bouncers
 - 39 Aero Nomad
 - 50 Pirate Falls: Treasure Quest
 - Identify the mechanisms and sources of power used to operate the different rides in the Resort including: electric motors, gravity, counter balance, pulleys, pumps and pneumatics.

LITERACY

- **English**
- **Throughout the Resort**
 - A day at the Resort will offer a starting point for a range of literacy activities, from chronological report writing and presentations to descriptive and story writing.
